1. Safety Instruction

Please, observe the following instructions:

- The expansion port must be used in compliance with all applicable international and national laws and in compliance with any special restrictions regulating the utilization of the communication module in prescribed applications and environments.
- Use only the original Advantech B+B SmartWorx company accessories. Thus you will prevent possible health risks and damage to the devices and ensure compliance with all relevant provisions. Unauthorised adjustments or use of unapproved accessories may result in damage to the expansion port and breach of applicable laws. Use of unapproved adjustments or accessories may lead to cancellation of guarantee, which has no effects on your legal rights.
- Do not expose the expansion port to extreme conditions. Protect it from dust, moisture and heat.

2. Product Disposal Instructions

The WEEE (Waste Electrical and Electronic Equipment: 2012/19/EU) directive has been introduced to ensure that electrical/electronic products are recycled using the best available recovery techniques to minimize the impact on the environment. This product contains high quality materials and components which can be recycled. At the end of its life this product **MUST NOT** be mixed with other commercial waste for disposal. Check the terms and conditions of your supplier for disposal information.

3. Description of the Expansion Port

Expansion port WMBUS is designed as an additional expansion board, that allows using the WMBUS wireless interface in v2 routers of Advantech B+B SmartWorx company. There is another external antenna connector brought forth of the device for this purpose. It allows the router to communicate with devices equipped with Wireless MBUS interface up to distance of 500 – 600 m in the case of direct visibility (see illustrative figure below).

Figure 1: WMBUS scheme

3.1 Example of Use

- Systems for data automatic reading (AMR – Automatic Meter Reading) from meters of electricity, gas, heat and other energy.
- Advanced Metering Infrastructure (AMI)
- Data concentrator

3.2 Compatibility with Advantech B+B SmartWorx routers

Expansion port WMBUS can be used in all v2 routers with available PORT2 position. Therefore it is designed for routers in version known as FULL.

3.3 State Indication of WMBUS Port

LED diode	Description of indication
Green LED	Indicates Receive data
Yellow LED	Indicates Transmit data

3.5 Technical Specifications

Expansion port WMBUS		
Power supply	Internal	+3,3 V
Environment	Operating temperature	-30 to +60 °C
	Storage temperature	-40 to +85 °C
Standards	EN 13757-4:2005	
Modes	S, T and R2	
Wireless MBUS	Range	500 – 600 m (in case of direct visibility)
	Data rate	4.8, 32.768, 100 kbps
	Output power	9 dBm
	Frequency range	868.03 – 868.95 MHz
